Profile

CKA-certified DevOps/Cloud Engineer building Azure Kubernetes infrastructure and CI/CD workflows with Terraform, Helm, GitHub Actions and Argo CD. Portfolio work includes container smoke tests, vulnerability scanning and passwordless Azure authentication. Brings 6+ years of Windows and Microsoft 365 support and escalation experience at Microsoft and Concentrix to systems troubleshooting and reliability.

Projects

HomeOffice Commerce | Azure Kubernetes & DevOps Project Link

- Deployed Next.js, Flask and PostgreSQL to **AKS** using **Terraform** infrastructure and **Helm** workloads.
- Built **GitHub Actions** validation, secret and smoke checks; **Trivy** blocks High or Critical vulnerabilities.
- Used **OIDC** for passwordless Azure CI access and commit-SHA image tags in **ACR**.
- Delivered Helm changes through **Argo CD**, with deployment pull requests and reviewed manual sync.
- Added backend health probes, resource limits, **PostgreSQL persistent storage** and non-root containers.
- Fixed a database-driver failure with pinned dependencies and a **Bash regression smoke test**.

Technical Experience

Support Engineer, Microsoft – Cairo, Egypt Dec 2021 – Present

- Resolve escalated **Windows performance and shell issues** through operating-system diagnostics.
- Analyze **traces, logs and crash or hang dumps** to isolate bottlenecks and failures.
- Reproduce issues, distinguish configuration faults and escalate **suspected product defects** with evidence.
- Improve **diagnostic scripts and workflows**; share reusable troubleshooting guidance.
- **Global MVP, FY25 Q1 Winner**, for support during the July 2024 CrowdStrike outage.

Windows Support Engineer-German, Concentrix – Cairo, Egypt Nov 2020 – Dec 2021

- Recognized as a **top performer** in the Office account and chosen to contribute to the newly launched Windows account.
- Resolved Windows service requests through **log analysis and technical research**, maintaining a **100%** customer satisfaction rate.

Office Support Engineer-German, Concentrix – Cairo, Egypt Dec 2019 – Nov 2020

- Resolved **700+ Microsoft 365 service requests** for customers in German-speaking regions, covering SharePoint, OneDrive, Teams, Outlook and Exchange Online, with nearly **100% CSAT**.

Certifications

Certified Kubernetes Administrator (CKA) *The Linux Foundation, Sep 2026*
Microsoft Azure **Administrator** (AZ-104) *Microsoft, Mar 2022*
Microsoft Azure **Fundamentals** (AZ-900) *Microsoft, Jan 2022*
Microsoft **AI Business Professional** *Microsoft, Apr 2026*
Microsoft **AI Transformation Leader** *Microsoft, Apr 2026*
Microsoft Security, Compliance, and Identity **Fundamentals** *Microsoft, Apr 2026*
Microsoft Azure AI **Fundamentals** (AI-901) *Microsoft, Sep 2025*

Education

Helwan University, Bachelor of Engineering Jul 2017

Technical Skills

CI/CD and GitOps:	Git, GitHub Actions, Jenkins, Argo CD
Cloud Providers:	Azure (AKS, ACR), AWS, Linode, DigitalOcean
Programming/Scripting:	Python, Bash
Infrastructure Automation:	Terraform, Ansible
Containerization Tools:	Docker, Docker Compose, Kubernetes, Helm
Project Security:	Trivy, OIDC federation, Azure managed identities
Systems Troubleshooting:	Windows architecture, memory management, debugging, Sysinternals tools

Earlier Experience

Spare Parts Sales Engineer, Al-Mansour Automotive – Cairo, Egypt Nov 2018 – Nov 2019

– Matched customer requirements to spare parts and sourced alternatives to keep repairs on schedule.

Biomedical Sales Engineer, Sigma for Import & Export – Cairo, Egypt Jan 2018 – Oct 2018

– Advised audiologists on clinical equipment selection and prepared technical tender documentation.

Customer Service Representative (UK Account), Vodafone – Cairo, Egypt Aug 2015 – Dec 2017

– Ranked third among top performers for two consecutive quarters while working part-time during college.
